

Blackhead Remover Kit (Pack of 12 piece)

Description

Blackhead Remover Kit (Pack of 12 piece) – Stainless Steel Acne Removal Needles & Pimple Extractor Tool Set for Safe Facial Care

Achieve clear and healthy skin with our **Blackhead Acne Removal Needle Kit**, designed for safe and effective skincare at home. This premium set includes **stainless steel extractor tools** with anti-slip handles for precise control. Each tool is crafted to remove **blackheads, whiteheads, pimples, and acne** without causing scars or skin damage. Suitable for all skin types, this professional kit is compact, reusable, and easy to carry – perfect for both men and women who want salon-like results at home.

Advantages

- Made with **high-quality stainless steel** – durable, safe, and rust-free.
- **Double-ended design** – multiple tools for blackheads, whiteheads, pimples, and acne.
- **Anti-slip grip** – ensures precision and prevents accidental skin damage.
- **Safe & hygienic** – minimizes the risk of infection when properly sanitized.
- **Portable pouch** – easy to store and carry anywhere.

How to Use

1. Cleanse your face with warm water to open up pores.

2. Disinfect the needle tool with rubbing alcohol.
3. Gently press the looped end around the blackhead, whitehead, or pimple.
4. Apply light pressure until the impurity is extracted.
5. Clean the treated area and apply a soothing toner or moisturizer.
6. Wash and disinfect the tool after every use.
